

Michael Factor, SC Chair, IBM Research

Ethan Miller, University of California Santa Cruz

Dalit Naor, IBM Research

Liuba Shrira, Brandeis University

Dan Tsafir, Technion

Erez Zadok, Stony Brook University

Welcome to

The 9th ACM International
Systems and Storage Conference

June 6 – 8, 2016

SYSTOR 2017

The 10th ACM International
Systems and Storage Conference

May 22 – 24

IBM Haifa site auditorium

- Dates:
 - May 22-24 2017
- Program Chairs:
 - Peter Desnoyers, College of Computer and Information Science, Northeastern University
 - Eyal de Lara, Dept. of Computer Science, University of Toronto
- General Chair:
 - Doron Chen, IBM Research

General Chair

Katherine Barabash

IBM Research – Haifa

Platinum sponsors

Gold sponsors

Sponsors

Thank you to the 2016 team

Publicity Chair

Joel Nider

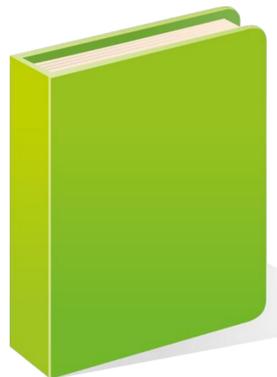

IBM Research – Haifa

also, a Beer Chair 😊

Thank you to the 2016 team

Publication Chair
Gala Yadgar
Technion

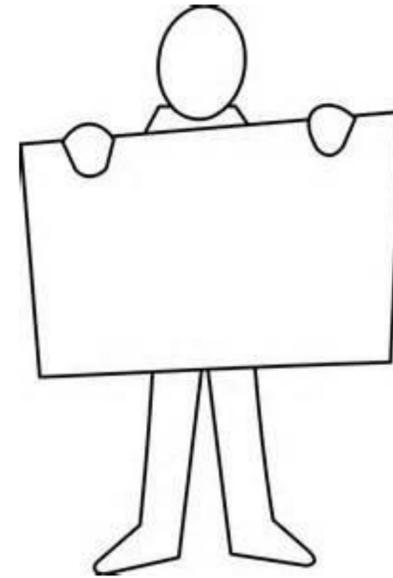

Proceedings will soon be available in the

Posters Chair

Anna Levin

IBM Research – Haifa

Systor2016
9th ACM International Systems and Storage Conference

Poster Session

“Best Poster” Award

Please vote now!

The posters are assigned numbers for the sake of voting.  **Poster number** 

**Local Organization
Chair**

Eti Jahr

IBM Research – Haifa

Communications Team

- Chani Sacharen
- Yair Harry
- Tamar Dekel

Thank you to the attendees

Geography

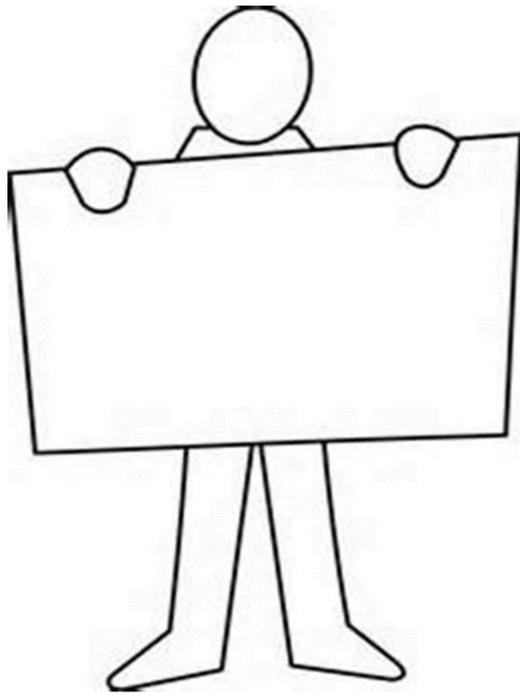

75% of the registrations are from Israel

Academia vs Industry

40% of the registrations are from academia

please fill in our [survey](#) 😊

Don't miss the social events

Today, 5:30-7 pm
@ the lobby

- Awards Reception
- Posters session
- Beers and Snacks
- Awards

Don't miss the social events

Tomorrow, 2pm
Safed Tour

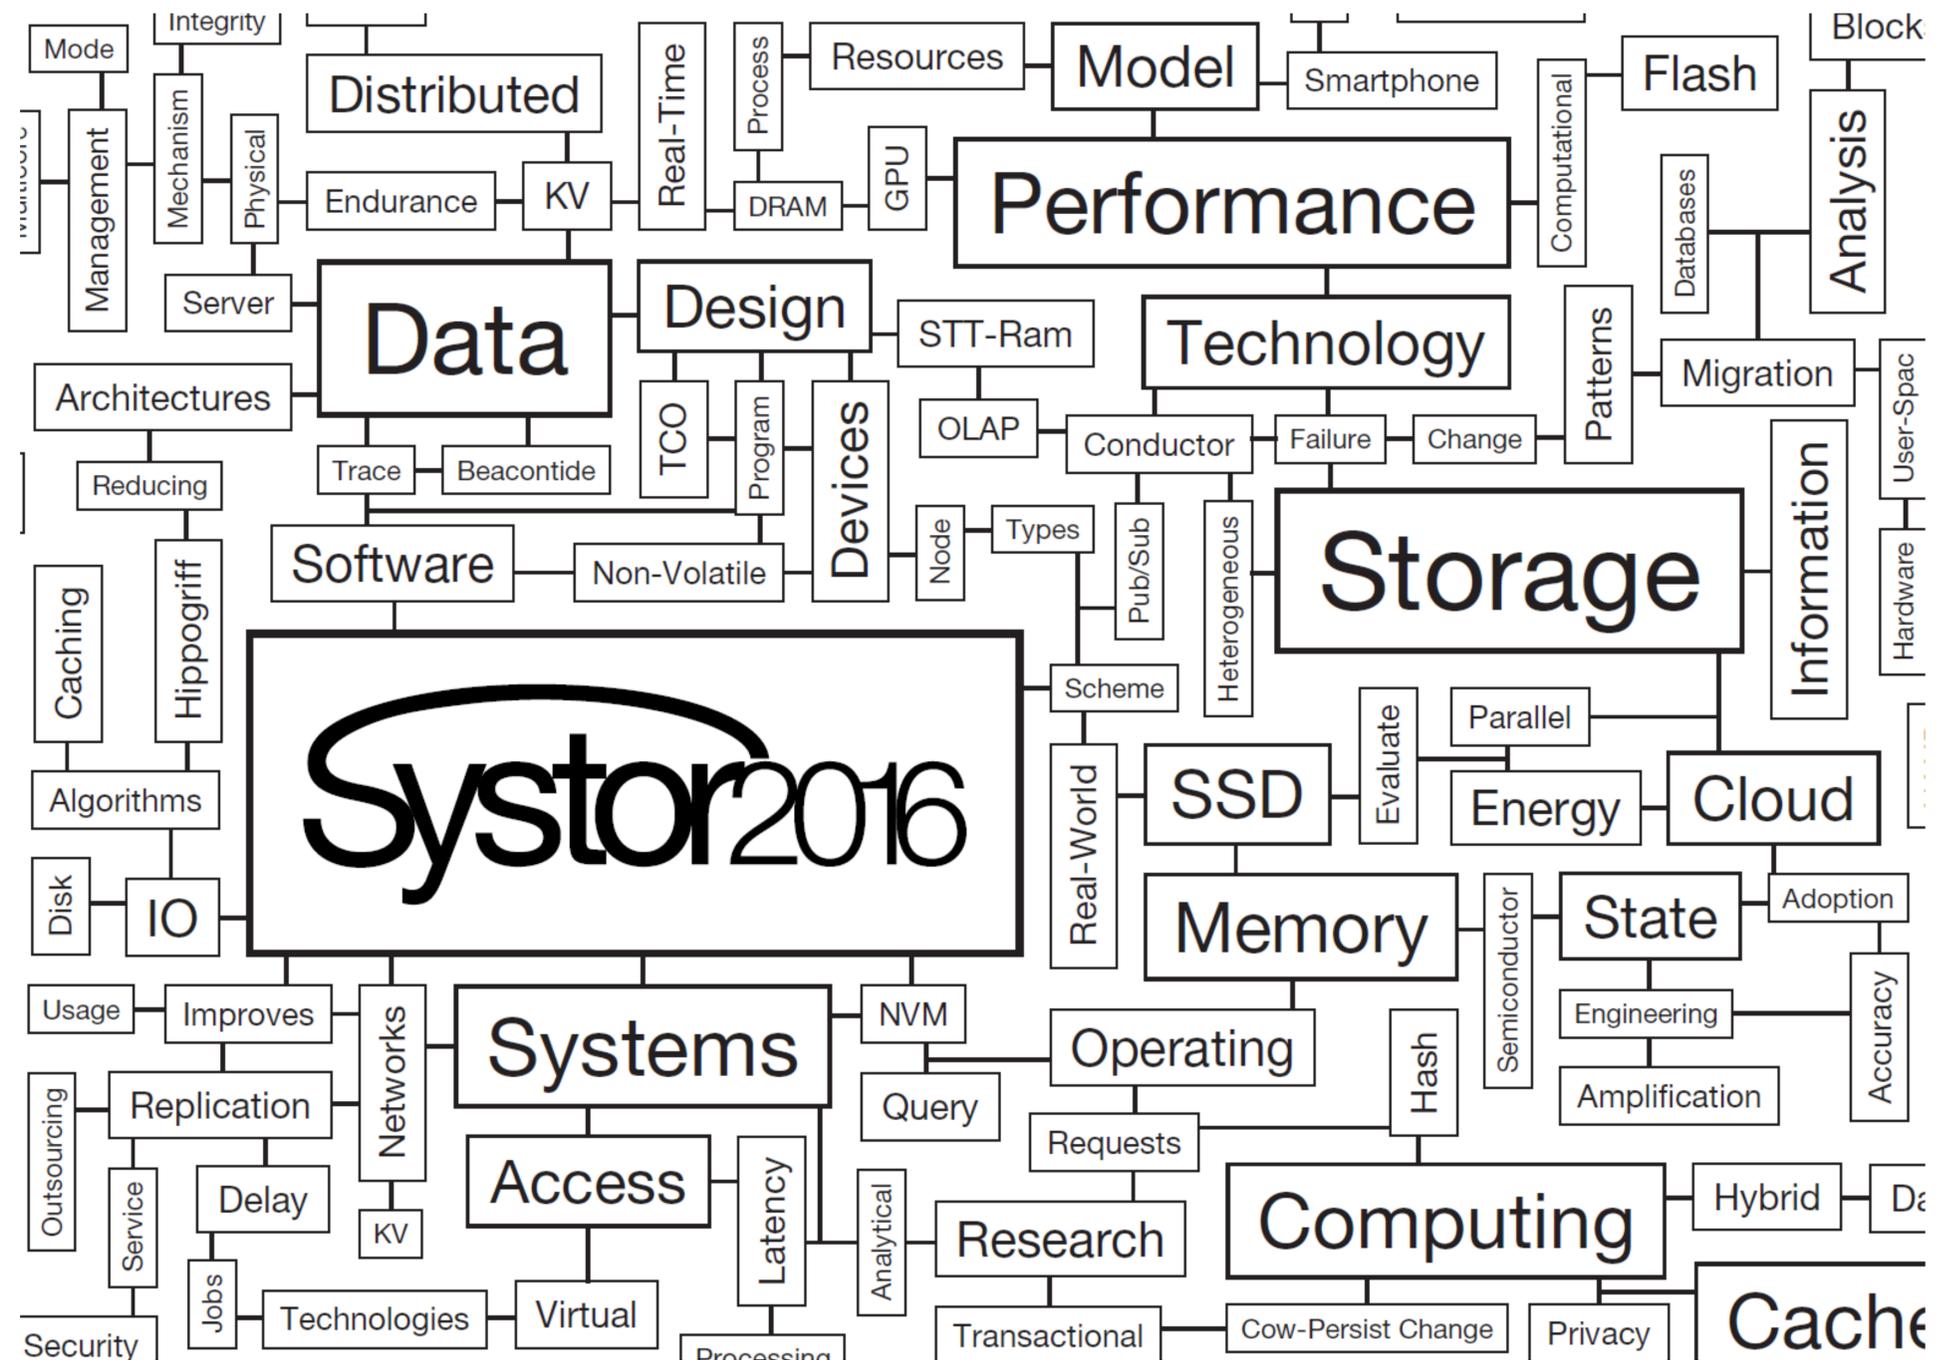

- Ancient alleyways
- Sacred atmosphere
- Dinner at picturesque
Amirey Hagalil

Welcome the Program Chairs

Program chairs:

Mark Silberstein (Technion)
Emmett Witchel (UT Austin)

PC chairs:

Mark Silberstein (Technion)

Emmett Witchel (UT Austin)

Vikram S. Adve (University of Illinois at Urbana-Champaign)

Mahesh Balakrishnan (Yale University)

Stephen Bates (PMC-Sierra)

Edward Bortnikov (YAHOO! Research)

Bjorn Brandenburg (MPI)

Anat Bremler-Barr (Interdisciplinary Center, Herzliya)

Yuval Cassuto (Technion)

Allen Clement (Google)

Frank Dabek (Google)

Peter Druschel (MPI)

Isaac Gelado (NVIDIA)

Andreas Haeberlen (University of Pennsylvania)

Dean Hildebrand (IBM Research)

Hank Hoffmann (University of Chicago)

Kirill Kogan (IMDEA Networks Institute)

Alex Kogan (Oracle)

Michael Kaminsky (Intel Labs)

Manos Kapritsos (Microsoft Research)

Taesoo Kim (Georgia Tech)

Gabriel Kliot (Google)

Rama Kotla (Amazon)

Scott Mahlke (University of Michigan)

Changwoo Min (Georgia Tech)

Dmitri Perelman (Facebook)

Donald E. Porter (Stony Brook University)

Robbert Van Renesse (Cornell University)

Christopher J. Rossbach (VMware Research)

Larry Rudolph (Two Sigma Investments)

Michael Schapira (Hebrew University of Jerusalem)

Bianca Schroeder (University of Toronto)

Xi Wang (University of Washington)

Yang Wang (Ohio State University)

Hakim Weatherspoon (Cornell University)

Yaron Weinsberg (IBM Research)

David Wolinsky (Facebook) Rama Kotla (Amazon)

- Submitted 43 Full, 6 Short papers
- 35 PC members, 193 reviews
- Most papers received 4 reviews, all received at least 3, and at least one with high expertise
- Additional expert reviews were solicited to make the final decision
- Consensus was achieved for each paper though 4 days of online discussion
- Accepted 14 Full, 2 Short papers accepted (32%)

Geography

75% of Accepted papers from outside of Israel

Academia vs Industry

Accepted papers 87% academia

Highlight papers

- Papers recently presented by Israeli researchers in top international forums – SIGCOMM, VLDB, USENIX Security, ASPLOS, IPSN, PLDI
- PC chairs selected 7 highlight papers out of 15 submitted
- Criteria – relevance and program diversity
- Scheduled together with regular presentations to complement the sessions

The PC has selected

The 2016 Best Paper

and

Two 2016 Best Student Papers

Health-Binning: Maximizing the Performance and the Endurance of Consumer-Level NAND Flash

Roman Pletka and Saša Tomić
IBM Research – Zurich

SSD Failures in Datacenters: What? When? And Why?

Iyswarya Narayanan (Pennsylvania State University), **Di Wang**, **Myeongjae Jeon**, **Bikash Sharma**, **Laura Caulfield** (Microsoft), **Anand Sivasubramaniam** (Pennsylvania State University), **Ben Cutler**, **Jie Liu**, **Badriddine Khessib**, and **Kushagra Vaid** (Microsoft)

Enabling Space Elasticity in Storage Systems

Helgi Sigurbjarnarson (University of Washington),
Petur O. Ragnarsson (Reykjavik University),
Juncheng Yang (Emory University),
Ymir Vigfusson (Emory University, Reykjavik University),
and **Mahesh Balakrishnan** (Yale University)

- Best poster will be selected at the poster session
- Based on your votes
- The voting page is inside your conference folder

Monday June 6, 2016

A Taxonomy of Non-Success

Eddie Kohler (Harvard)

Tuesday June 07, 2016

Collective Authorities: Securely Decentralizing Trust at Scale

Bryan Ford (EPFL)

Wednesday June 08, 2016

**Safeguarding Users' Sensitive
Data in the Cloud and the
Browser**
